Which, from what you do in your life, makes you feel happy?

What have you experienced thanks to your hobbies and what 1. have you learned?

2. has enriched you?

3. has helped you in another

way?

Three-Phase Conversation:

- Accept all the roles, one by one, in a three-phase conversation.
- Answer the questions when it is your turn and think them over from different aspects. Even if you do not know how to answer,, try anyway to think up a possible reply.
- Follow the information and replies of other members of your group, develop them or produce arguments to support another opinion.
- Speak to the point and do not stray from the subject.
- Do not interrupt someone who is speaking.
- Listen carefully when it is not your turn to speak.
- Take notes of what is being spoken.
- Make sure that you have written down the ideas of your fellow classmates correctly.
