

House of the animals

- Kuvittaja ymmärtänyt väärin???...has a detailed picture of a house and animals doing something for example sleeping, eating, washing clothes. Children **cut** the little pictures off the attachment and glue them on the right room. Under the picture are some lines where children can write the names of different rooms. For example The bear is sleeping in the _____. The cat is eating in the _____. If the pupils have time they can color the house.
