Houses and caravans

There are four different kinds of areas. In the red area there are only row houses. In the blue area there are only apartment buildings. In the green area there is all kind of houses.

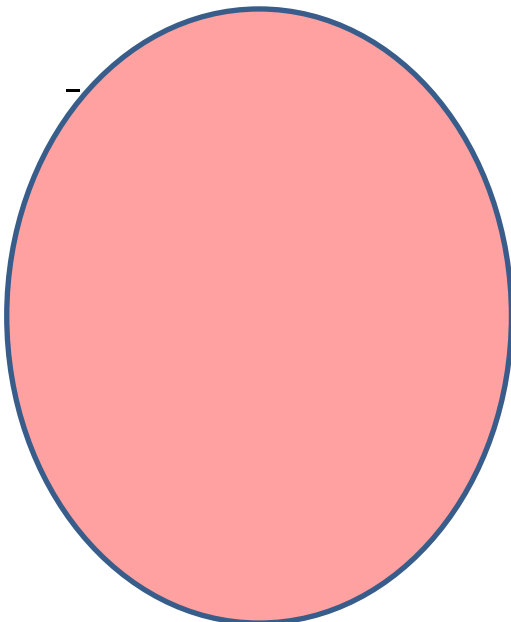

In these three areas there are total of six row houses. Two of them are in the green area. One of these row houses is red, other ones are yellow.

Total amount of the apartment buildings is five. Two of them are not in the blue area. All of the apartment buildings are painted gray.

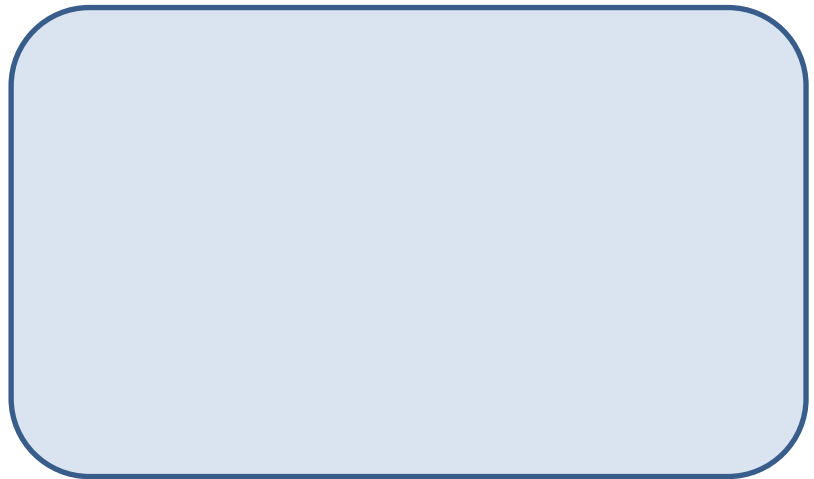

In the green area there are three detached houses. They are all painted in different colors.

Draw and color the houses to the areas.
